

SAFETY DATA SHEET HEAVY-DUTY TRANSIT CLEANER, AEROSOL

According to WHMIS 2015, in compliance with the Hazardous Product Act (HPA, as amended) and the requirements of the Hazardous Product Regulations (HPR)

1. Identification		
Product identifier		
Product name	HEAVY-DUTY TRANSIT CLEANER, AEROSOL	
Product number	MCC-HDTC19A	
Recommended use of the ch	emical and restrictions on use	
Restriction on use	Cleaning agent.	
Details of the supplier of the safety data sheet		
Supplier	MICROCARE LLC Tel: +1 860-827-0626	
Manufacturer	MICROCARE LLC 595 John Downey Drive New Britain, CT 06051 United States of America CAGE: OATV9 Tel: +1 800-638-0125, +1 860-827-0626 techsupport@microcare.com	
Emergency telephone number	er de la constante de la const	
Emergency telephone	INFOTRAC 1-800-535-5053 (CANADA and U.S.A.) 1-352-323-3500 (from anywhere in the world)	
2. Hazard identification		
Classification of the substance	e or mixture	
Physical hazards	Press. Gas, Liquefied - H280	
Health hazards	Acute Tox. 4 - H332	
Environmental hazards	Aquatic Chronic 3 - H412	
Human health	Prolonged or repeated contact with skin may cause irritation, redness and dermatitis. Mild dermatitis, allergic skin rash.	
Environmental	The product contains a substance which is harmful to aquatic organisms and which may cause long-term adverse effects in the aquatic environment.	
Physicochemical	Vapours are heavier than air and may travel along the floor and accumulate in the bottom of containers. Not considered to be a significant hazard due to the small quantities used. Gas or vapour displaces oxygen available for breathing (asphyxiant).	
Label elements		

Hazard pictograms

$\langle ! \rangle$	

Signal word	Warning
Hazard statements	H332 Harmful if inhaled. H412 Harmful to aquatic life with long lasting effects.
Precautionary statements	 P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P211 Do not spray on an open flame or other ignition source. P251 Do not pierce or burn, even after use. P261 Avoid breathing vapour/ spray. P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. P501 Dispose of contents/ container in accordance with local regulations.
Supplemental label information	Safety data sheet available on request. For use in industrial installations only.
Contains	trans-1,2-DICHLOROETHYLENE

3. Composition/information on ingredients

Mixtures

trans-1,2-DICHLOROETHYLENE

CAS number: 156-60-5

Classification

Flam. Liq. 2 - H225 Acute Tox. 4 - H332 Eye Irrit. 2A - H319 STOT SE 3 - H336 Aquatic Chronic 3 - H412

HFC-134a Tetrafluoroethane

CAS number: 811-97-2

Classification

Press. Gas, Liquefied - H280 Simple Asphyxiants - Category 1

1,1,1,2,2,3,4,5,5,5-decafluoropentane

CAS number: 138495-42-8

Classification

Aquatic Chronic 3 - H412

The full text for all hazard statements is displayed in Section 16.

Composition comments Not applicable.

30-60% Trade secret

4. First-aid measures

Description of first aid measur	es
General information	Never give anything by mouth to an unconscious person. Do not induce vomiting. Place unconscious person on the side in the recovery position and ensure breathing can take place. If breathing stops, provide artificial respiration.
Inhalation	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen.
Ingestion	Do not induce vomiting. Rinse mouth thoroughly with water. Give plenty of water to drink. Consult a physician for specific advice.
Skin contact	Remove contaminated clothing and rinse skin thoroughly with water.
Eye contact	Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Consult a physician for specific advice.
Most important symptoms and	effects, both acute and delayed
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation	Vapours may cause headache, fatigue, dizziness and nausea. Difficulty in breathing. Upper respiratory irritation. Severe irritation of nose and throat.
Ingestion	May cause stomach pain or vomiting. Drowsiness, dizziness, disorientation, vertigo.
Skin contact	Prolonged or repeated contact with skin may cause irritation, redness and dermatitis.
Eye contact	Irritation of eyes and mucous membranes. Irritating to eyes. Symptoms following overexposure may include the following: Redness. Pain.
Indication of any immediate m	edical attention and special treatment needed
Notes for the doctor	No specific recommendations. If in doubt, get medical attention promptly.
5. Fire-fighting measures	
Extinguishing media	
Suitable extinguishing media	The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire.
Specific hazards arising from t	the hazardous product
Specific hazards	Keep away from heat, sparks and open flame. Thermal decomposition or combustion products may include the following substances: Toxic and corrosive gases or vapours. Aerosol containers can explode when heated, due to excessive pressure build-up.
Hazardous combustion products	Heating may generate the following products: Toxic and corrosive gases or vapours. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours. Oxides of carbon. Oxides of nitrogen.
Advice for firefighters	
Protective actions during firefighting	Move containers from fire area if it can be done without risk. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Bursting aerosol containers may be propelled from a fire at high speed.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.
6. Accidental release measure	9 S

Personal precautions, protective equipment and emergency procedures

Personal precautions	Warn everybody of potential hazards and evacuate if necessary. Provide adequate ventilation. Avoid inhalation of vapours. Use approved respirator if air contamination is above an acceptable level.
Environmental precautions	
Environmental precautions	Contain spillage with sand, earth or other suitable non-combustible material. Avoid release to the environment.
Methods and material for cont	ainment and cleaning up
Methods for cleaning up	Wear suitable protective equipment, including gloves, goggles/face shield, respirator, boots, clothing or apron, as appropriate. Eliminate all sources of ignition. No smoking, sparks, flames or other sources of ignition near spillage. Provide adequate ventilation.
Reference to other sections	
Reference to other sections	See Section 11 for additional information on health hazards.
7. Handling and storage	
Precautions for safe handling	
Usage precautions	Provide adequate ventilation. Avoid inhalation of vapours/spray and contact with skin and eyes. Keep away from heat, sparks and open flame. Thermal decomposition or combustion products may include the following substances: Toxic and corrosive gases or vapours.
Conditions for safe storage, in	cluding any incompatibilities
Storage precautions	Aerosol cans: Must not be exposed to direct sunlight or temperatures above 50°C.
Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.
Reference to other sections.	Store away from incompatible materials (see Section 10).
8. Exposure controls/Persona	I protection
Control parameters	

Occupational exposure limits

trans-1,2-DICHLOROETHYLENE

Long-term exposure limit (8-hour TWA): ACGIH 200 ppm 793 mg/m³

HFC-134a Tetrafluoroethane

Long-term exposure limit (8-hour TWA): OES 4240 mg/m³ ACGIH = American Conference of Governmental Industrial Hygienists.

Ingredient comments ACGIH = US Standard.

Exposure controls

Protective equipment

Appropriate engineering controls

Eye/face protection

No specific ventilation requirements. This product must not be handled in a confined space without adequate ventilation.

Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses.

Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible.
Other skin and body protection	Wear suitable protective clothing as protection against splashing or contamination. Wear apron or protective clothing in case of contact.
Hygiene measures	No specific hygiene procedures recommended but good personal hygiene practices should always be observed when working with chemical products. When using do not eat, drink or smoke.
Respiratory protection	Vapours are heavier than air and may travel along the floor and accumulate in the bottom of containers. In confined or poorly-ventilated spaces, a supplied-air respirator must be worn. Wear self-contained breathing apparatus with full facepiece.

9. Physical and chemical properties

Information on basic physical and chemical properties		
Appearance	Clear liquid. Aerosol.	
Colour	Colourless.	
Odour	Slight. Ether.	
Odour threshold	No information available.	
рН	No information available.	
Melting point	No information available.	
Initial boiling point and range	39°C/102°F @ 101.3 kPa	
Flash point	The product is not flammable.	
Evaporation rate	No information available.	
Evaporation factor	No information available.	
Upper/lower flammability or explosive limits	Upper flammable/explosive limit: 13 %(V) Lower flammable/explosive limit: 5.5 %(V)	
Other flammability	The product is not flammable. Aerosol ignition distance: none at 0.0 cm	
Vapour pressure	55.3 kPa @ 25°C	
Vapour density	3.7	
Relative density	1.27	
Bulk density	No information available.	
Solubility(ies)	0.3 g/100 g water @ 20°C Slightly soluble in water.	
Partition coefficient	No information available.	
Auto-ignition temperature	No information available.	
Decomposition Temperature	No information available.	
Viscosity	No information available.	
Explosive properties	No information available.	
Oxidising properties	Not known.	
Comments	Aerosol	

Global Warming Potential (GWP)		
Surface tension		
Refractive index	No information available.	
Particle size	No information available.	
Molecular weight	No information available.	
Volatility	100%	
Saturation concentration	No information available.	
Critical temperature	No information available.	
Volatile organic compound	This product contains a maximum VOC content of 1080 g/l.	
Heat of vaporization (at boiling point), cal/g (Btu/lb)	I	
10. Stability and reactivity		
Reactivity	The following materials may react with the product: Strong alkalis.	
Stability	Stable at normal ambient temperatures and when used as recommended.	
Possibility of hazardous reactions	Will not polymerize.	
Conditions to avoid	Keep away from heat, sparks and open flame. Thermal decomposition or combustion products may include the following substances: Toxic and corrosive gases or vapours.	
Materials to avoid	Alkali metals. Alkaline earth metals. Powdered metal.	
Hazardous decomposition products	Heating may generate the following products: Toxic and corrosive gases or vapours. Halogenated hydrocarbons. Hydrogen fluoride (HF). Carbon dioxide (CO2). Carbon monoxide (CO).	
11. Toxicological information		
Information on toxicological ef	fects	
Acute toxicity - inhalation ATE inhalation (vapours mg/l)	19.05	
Inhalation	Vapours may irritate throat/respiratory system. A single exposure may cause the following adverse effects: Coughing. Difficulty in breathing.	
Ingestion	May cause stomach pain or vomiting. May cause nausea, headache, dizziness and intoxication.	
Skin contact	Product has a defatting effect on skin. May cause allergic contact eczema.	
Eye contact	May cause temporary eye irritation.	
Medical symptoms	Gas or vapour in high concentrations may irritate the respiratory system. Symptoms following overexposure may include the following: Headache. Fatigue. Nausea, vomiting.	
Toxicological information on ingredients		

trans-1,2-DICHLOROETHYLENE

Other health effects	There is no evidence that the product can cause cancer.	
Acute toxicity - oral		
Acute toxicity oral (LD₅₀ mg/kg)	7,902.0	
Species	Rat	
ATE oral (mg/kg)	7,902.0	
Acute toxicity - dermal		
Acute toxicity dermal (LD₅ mg/kg)	5,000.0	
Species	Rat	
ATE dermal (mg/kg)	5,000.0	
Acute toxicity - inhalation		
ATE inhalation (vapours mg/l)	11.0	
Skin corrosion/irritation		
Skin corrosion/irritation	Prolonged and frequent contact may cause redness and irritation.	
Animal data	Slightly irritating. Rabbit	
Serious eye damage/irritati	on	
Serious eye damage/irritation	Supplier's information. Rabbit 500 mg 24 hours Causes mild skin irritation.	
Respiratory sensitization		
Respiratory sensitization	No specific test data are available.	
Skin sensitization		
Skin sensitization	No specific test data are available.	
Germ cell mutagenicity		
Genotoxicity - in vitro	This substance has no evidence of mutagenic properties.	
Genotoxicity - in vivo	This substance has no evidence of mutagenic properties.	
Carcinogenicity		
Carcinogenicity	No specific test data are available.	
Specific target organ toxicit		
STOT - single exposure	NOAEL Not available.	
Specific target organ toxicit	·	
STOT - repeated exposure		
Target organs	Endocrine system Liver Kidneys Bladder Respiratory tract	
HFC-134a Tetrafluoroethane		
Other health effects	There is no evidence that the product can cause cancer.	

Acute toxicity - inhalation	
Acute toxicity inhalation (LC₅ gases ppmV)	567,000.0
Species	Rat
ATE inhalation (gases ppmV)	567,000.0
Inhalation	Vapours irritate the respiratory system. May cause coughing and difficulties in breathing.
Ingestion	May cause stomach pain or vomiting. May cause nausea, headache, dizziness and intoxication.
Skin contact	May cause allergic contact eczema. Contact with liquid form may cause frostbite.
Eye contact	May cause temporary eye irritation.
	1,1,1,2,2,3,4,5,5,5-decafluoropentane
Acute toxicity - oral	
Acute toxicity oral (LD₅₀ mg/kg)	5,000.0
Species	Rat
ATE oral (mg/kg)	5,000.0
Acute toxicity - dermal	
Acute toxicity dermal (LD₅₀ mg/kg)	5,000.0
Species	Rat
ATE dermal (mg/kg)	5,000.0
Acute toxicity - inhalation	
Acute toxicity inhalation (LC₅ vapours mg/l)	114.0
Species	Rat
ATE inhalation (vapours mg/l)	114.0
Skin corrosion/irritation	
Animal data	Not irritating. Rabbit
Human skin model test	Data lacking.
Extreme pH	Not applicable. Not corrosive to skin.
Serious eye damage/irritati	on
Serious eye damage/irritation	Not irritating. Rabbit
Respiratory sensitization	

	Respiratory sensitization	Data lacking.
	Skin sensitization	
	Skin sensitization	Not sensitising Guinea pig: Not sensitising.
	Germ cell mutagenicity	
	Genotoxicity - in vitro	This substance has no evidence of mutagenic properties.
	Genotoxicity - in vivo	This substance has no evidence of mutagenic properties.
	Carcinogenicity	
	Carcinogenicity	Does not contain any substances known to be carcinogenic.
	IARC carcinogenicity	Not listed.
	Reproductive toxicity	
	Reproductive toxicity - fertility	No evidence of reproductive toxicity in animal studies.
	Skin contact	Skin irritation should not occur when used as recommended. May cause defatting of the skin but is not an irritant.
	Eye contact	May cause eye irritation.
	Acute and chronic health hazards	There is no evidence that the product can cause cancer.

Persistence	and degradability	
Ecological i	nformation on ingredients	
		trans-1,2-DICHLOROETHYLENE
	Biodegradation	Not readily biodegradable. Method: OECD Test Guideline 301D
Bioaccumu	ative potential	
Bioaccumu	ative potential No data	available on bioaccumulation.
Partition co	efficient No infor	mation available.
Ecological i	nformation on ingredients	
		trans-1,2-DICHLOROETHYLENE
	Bioaccumulative potential	Bioaccumulation is unlikely to be significant because of the low water-solubility of this product.
	Partition coefficient	log Pow: 2.06
		HFC-134a Tetrafluoroethane
	Partition coefficient	Pow: 1.06
		1,1,1,2,2,3,4,5,5,5-decafluoropentane
	Bioaccumulative potential	Bioaccumulation is unlikely to be significant because of the low water-solubility of this product.
	Partition coefficient	Pow: 2.7
Mobility in s	soil	
Mobility	The pro-	duct contains volatile substances which may spread in the atmosphere.
Ecological i	nformation on ingredients	
		trans-1,2-DICHLOROETHYLENE
	Mobility	The product has poor water-solubility.
Other adve	-	

Other adverse effects	The product contains a substance or substances that will contribute to global warming (greenhouse effect).
13. Disposal considerations	
Waste treatment methods	
General information	Waste should be treated as controlled waste. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.
Disposal methods	Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.
