

# MicroCare

Date: December 4, 2008

To: Whom it may concern

From: Jay Tourigny  
V.P. Operations

Ref: Certification of Pre-Registration and compliance with REACH Regulation (EC) No 1907/2006 of the European Parliament

This letter certifies that MicroCare has fulfilled compliance requirements with REACH Regulation (EC) No 1907/2006 of the European Parliament by Pre-Registering over 100 ingredients used in MicroCare products. The regulation requires manufacturers and importers to the EU to register specific chemical ingredient information in excess of 1 metric ton per year by November 30, 2008.

Regarding the Substances of Very High Concern (SVHC) candidate list released by the European Chemicals Agency on October 28, 2008; this certifies that products offered for sale by MicroCare Corporation and MicroCare Europe BVBA do not contain more than 0.1% by weight per article of any substance on the SVHC candidate list.

MicroCare has already updated our EU product Safety Data Sheets (SDS) to comply with 1907/2006 Article 31 format requirements.

It is our objective to provide comprehensive REACH compliance so distributors and users of relevant MicroCare products, regardless of location, will meet all compliance obligations except those further imposed by local regulations.

Please contact your local MicroCare representative if you require evidence of Pre-Registration for a specific product, or have additional questions.
