

MATERIAL SAFETY DATA SHEET

1. Chemical Product and Company Identification

Product Name: Plastic Metal & Glass Cleaner.#MCC-4761,
#MCC-PMGW, #MCC-PMGG, #MCC-PMGP, #MCC-PMGD

Chemical Family: A blended compound of demineralized water and cleaning agents.

Packaged By: MicroCare Corp., 595 John Downey Dr., New Britain CT, 06051, USA CAGE/FSCM: OATV9

Emergency Telephone: CHEMTREC (800) 424-9300

2. Composition/Information on Ingredients

Material

Chemical Name	Wt.%Range	TLV Units
Demineralized Water CAS #7732-18-5	80.0-95.0	None Assigned
Ethanol CAS # 64-17-5	5.0-8.0	1000 ppm
Ammonium Carbonate CAS # 10361-29-2	Trace	None Assigned
Ammonium Hydroxide CAS# 1336-21-6	01.0-.03.0	None Assigned

All components of this material are listed on the TSCA inventory.

3. Hazard Identification

Emergency Overview: Not Flammable. Colorless liquid with a slight ammonia/alcohol odor. Liquid will irritate eyes and skin under repeated or prolonged exposure. Keep away from children.

Potential Health Effects:

Eyes: Vapor contact: Mild irritant. Liquid contact: Will irritate eyes with possible corneal injury. Persons wearing contact lenses should wear chemical protective safety glasses when exposed to this product.

Skin: For prolonged repeated contact: dry/chapped skin.

Ingestion: Can cause depression of central nervous system, nausea, stomach cramps, vomiting, diarrhea.

Inhalation: At low concentration levels: may cause mild irritation to nose and throat. At high levels: headache, drowsiness and lassitude, loss of appetite, inability to concentrate.

Medical Conditions Aggravated by Exposure: Preexisting disease of the heart, lungs, skin and eyes.

4. First Aid Measures

Eyes: Immediately flush with water. Remove any contact lenses and continue flushing for 15 minutes, lifting eyelids occasionally until no evidence of the chemical remains. If irritation develops or persists call a physician.

Skin: Wash promptly with soap and water. Remove and wash contaminated clothing and shoes before reuse.

Ingestion: If conscious, immediately give 2-4 glasses of water and induce vomiting by touching finger to back of throat. Do not give stimulants. Never give anything by mouth to an unconscious person. Call a physician.

Inhalation: Remove to fresh air. Keep person calm. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Do not give Epinephrine. Call a physician.

Note to Attending Physician: There is no specific antidote to overexposure. Treatment of overexposure should be directed at the control of symptoms and the clinical condition of the patient. Immediate medical attention for acute overexposure is required.

5. Firefighting Measures

Flash Point: Not Flammable

Flammable Limits in Air: Not Determined

Extinguishing Media: Not Flammable.

Special Firefighting Procedures: Evacuate personnel. Wear self contained breathing apparatus (SCBA) and full protective equipment. Keep containers cool. Containers are not pressurized with propellant, however, excessive heating may generate pressure within a closed container causing violent bursting and dangerous propelling of container.

6. Accidental Release Measures

Spill or Leak: Evacuate area, absorb spilled liquid with commercial, nonflammable absorbent i.e. sand, vermiculite. Remove unprotected personnel. Protected personnel should remove ignition sources and shut off fire sources. Provide ventilation. Shovel (spark proof) absorbent material into drums and close. Do not flush to sewer.

7. Handling and Storage

Avoid breathing vapors or mist. Use only with adequate ventilation. Avoid repeated or prolonged contact with eyes, skin or clothing. Wash thoroughly after handling. Do not store in direct sunlight. Store in cool dry place, away from heat.

8. Exposure Controls/Personal Protection

Eye Protection: Use chemical protective safety glasses.

Protective Clothing: Where there is potential for skin contact, use appropriate impervious gloves, apron, pants and jacket.

Exposure Guidelines: Applicable Exposure Limits.

Ethanol:

PEL (OSHA) 1000 ppm TWA

TLV (ACGIH) 1000 ppm TWA

NFPA, NPCA-HIMIS RATING:

Health	1
Flammability	0
Reactivity	0

Personal Protection rating to be supplied by user depending on use conditions.

9. Physical and Chemical Properties

Physical Form:	Clear colorless liquid
Odor:	Characteristic amonia/alcohol
Boiling Point:	99½C/211½F
pH:	Not Determined
Solubility in Water:	Complete
Specific Gravity:	.9 @ 15½C/60½F
% Volatile by Weight:	99.9
Vapor Pressure:	Not determined
Vapor Density (air=1):	2

10. Reactivity

Chemical Stability: Material is stable.

Hazardous Polymerization: Will not occur.

Incompatibilities: Avoid concentrated nitric and sulfuric acids, strong oxidizers, aldehydes, acetyl chloride, halogens and halogen compounds.

Decomposition Products: Burning may produce carbon monoxide and/or carbon dioxide.

11. Toxicological Information

Carcinogenicity: None of the components present in Plastic Metal & Glass Cleaner are listed by IARC, NTP, OSHA or ACGIH as a carcinogen.

12. Ecological Information

This material is not expected to be toxic to aquatic life.

13. Disposal Considerations

Waste Disposal: Treatment, storage, transportation, and disposal must be in accordance with applicable Federal, State/Provincial and Local regulations.

14. Transportation Information

Transport for Plastic Metal & Glass Cleaner:

Ground Transport: Liquid Cleaning Compound N.O.S. Not Hazardous, Not Regulated

Air Transport: Liquid Cleaning Compound N.O.S. Not Hazardous, Not Regulated

15. Regulatory Information

Section 313 Supplier Information: This material contains the following toxic chemicals subject to the emergency reporting requirements of Section 313 of the Emergency Planning and Community Right to Know Act of 1986 and 40 CFR 372:

CAS#	Chemical Name	% by Weight
64-17-5	Ethanol	08.0 %

This information must be included in all MSDSs that are copied and distributed for this material.

Title III Hazard Communications Sections 311, 312

Acute	No
Chronic	No
Fire	No
Reactivity	No

16. Other Information
