

Shelf Life on MicroCare Products

All MicroCare products have an unlimited shelf life when properly stored in a cool, dry location.

The date of manufacture can be determined by the lot number which is printed on the bottom of every Aerosol can, every Presaturated tub, and on the outside of every case of solvent. The first digit represents the year in which the solvent was manufactured (i.e. lot number 04182 was manufactured in 2004 and 01182 was manufactured in 2001). The last three digits represent the day of the year; this can be calculated using the Julian Code (i.e. 04182 were manufactured in 2004 on the 182nd day of the year).

If you have any questions, please feel free to contact MicroCare Corporation at 800-638-0125.
