

## Pro Tector® Infectious Waste Bags

### Description:

Red infectious waste bags constructed of polyethylene.

### Convenient:

- Packaged in pre-folded dispenser boxes.
- Easy storage and distribution.

### Meets State Regulations:

- Impact resistance of 165 grams.
- Tearing resistance of 480 grams.
- Meets ASTM D1709 and ASTM D1922 standards.

### Intended Use:

Pro Tector Infectious Waste Bags are designed specifically for the safe collection, handling and disposal of non-sharp infectious waste.

*Pro Tector Infectious Waste Bags are bright red waste bags constructed of heavy-duty polyethylene with the universally recognized biohazard symbol.*

*Meets stringent New York and Florida state "red bag" regulations.*

<b>Packaging and Dimensions</b>	Small - 10 Gallon - 24" x 23" - 100/box.	
	Medium - 12 Gallon - 24" x 30" - 100/box.	
	Large - 25 Gallon - 30" x 43" - 50/box.	
<b>Description</b>	<b>Case Qty</b>	<b>Order#</b>
Small - 10 Gallon - 23" x 24" - 100/box	1	PW1501-1
Medium - 12 Gallon 30" x 24" - 100/box	1	PW1505-1
Large - 25 Gallon - 43" x 30" - 50/box	1	PW2010-1

**Product Capabilities:**

Manufactured to meet the ASTM D1709 test standard for impact resistance at 165 grams; and the ASTM D1922 test standard for tearing resistance of 480 grams, satisfying all state regulations for infectious waste bags.

Heat welded seams provide strength to withstand collection, transport and disposal requirements.

Pro Tector Infectious Waste Bags are imprinted with text and symbols that meet state and federal requirements. "INFECTIOUS WASTE" is printed in English and Spanish along with the universal biohazard symbol. Lines are provided as a reminder in areas where generators must record their name and address.

**Use Precautions:**

Do not use this product as the primary container for SHARPS disposal.
