

# Clean PCBs Better, Faster, Safer *and* Lower Your Costs

## TriggerGrip™ Dispensing Tool (MCC-ESD)

Newly designed aerosol can adapter provides easy, secure connectivity

Reduces worker exposure to fluids and fumes

Completely empties cleaning fluid can for easier disposal

- **Boosts Productivity**  
*more cleaning in less time*
- **Consistent Cleaning**  
*same results for every operator*
- **Environmentally-Better**  
*less fumes and hazardous waste*

**Bench Mounting Kit**  
MCC-BK3

ESD Safe for sensitive electronics

Targeted cleaning cuts fluid use by 66%

Spray-through scrub brush boosts cleaning fluid power

## Replaceable TriggerGrip™ ESD-Safe Brushes

**Standard Brush**  
MCC-RBNB

Tightly packed, short natural bristles gently scrubs and rinses component surfaces.

**Surface Mount Brush**  
MCC-SMB

Small, natural bristles for superior cleaning on tightly-spaced SM and hybrid technologies.

**Slo-Flo Brush**  
MCC-RBNB2

Built-in flow restrictor reduces solved flow. Ideal for use with slower drying solvents.

**Spray-Thru Syringe**  
MCC-SR35

Cleans under densely-packed components.

# Cleaning PCBs at the lowest possible cost is easier than ever with MicroCare

FLUX REMOVER	BEST ON	CLEANING STRENGTH (KB)	PLASTIC SAFE	FLAMMABILITY	ODOR	DRYING SPEED	VOC CONTENT
<b>General Purpose Flux Remover C</b> <i>MCC-FRC</i>	No-Clean / Rosin / Water Soluble	25 (Medium)	Test	No	Low	Fast	590 g/L
<b>Universal Flux Remover</b> <i>MCC-UFR10A</i>	Rosin	34 (Medium)	Test	No	Slight	Fast	59 g/L
