

FAQs

Stereze Workspace Cleaners and Hand Sanitizers meet the highest safety and quality standards, keeping your people and spaces as safe as can be.

Q. Are the Stereze Workspace Cleaners disinfectants?

A. No, they are not registered with the EPA as disinfectants. However, they are considered an “alternative disinfectant”* as defined by the CDC (Centers for Disease Control and Prevention).

Q. Are Stereze Workspace Cleaners EPA registered?

A. The Stereze Workspace Cleaners are not EPA registered. However, the CDC states that if EPA registered disinfectants are in short supply, “alternative disinfectants” can be used.

Q. What are “alternative disinfectants”?

A. According to the CDC, the alternatives include a mixture of 1/3 cup of bleach to 1 gallon of water; or “70% alcohol solutions”*.

Q. What is the alcohol mixture of the Stereze Workspace Cleaners?

A. The Stereze 70% Isopropyl Alcohol products are a solution of 70% high-purity Isopropyl Alcohol (IPA) and 30% deionized water, which meets CDC recommendations*.

Q. Where are Stereze Workspace Cleaners used?

A. Public spaces, conference rooms, classrooms, break rooms, restrooms, lobbies, etc.

Q. How are Stereze Workspace Cleaners used?

A. Stereze 70% Isopropyl Alcohol wipes are safe to use on a variety of metals and plastics including tables, desks and countertops, tools and machinery, keyboards and mobile phones. Stereze Hand Sanitizer effectively sanitizes hands.

Q. How are Stereze Presaturated Wipes different than the wipes I buy in the grocery store?

A. Stereze Presaturated Wipes are premium multi-purpose wipes designed to last. They are larger, thicker, tear-resistant and stand up to rigorous scrubbing, even on rougher surfaces.

Q. What size are the Stereze Presaturated Wipes?

A. Stereze Presaturated Wipes come in two sizes: a 100-count tub with big 5" x 8" wipes. The tub features a unique "slam-shut" lid to keep wipes wet and fresh; and an 800-count bucket with larger 8-1/2" x 6" wipes. In addition, presaturated wipes are available in a refill pack to simply drop into your tub or bucket to save you money and reduce waste.

Q. Where are Stereze Workspace Cleaners made?

A. Stereze Workspace Cleaners are made in the USA.

Q. Are Stereze Workspace Cleaners fast or slow drying?

A. The Stereze 70% high purity IPA and 30% D.I. (deionized) water mixture evaporates slowly, allowing the cleaning fluid to remain on surfaces longer for better cleaning.

Q. What type of packaging do the Stereze Workspace Cleaners come in?

A. Stereze Workspace Cleaners come in different packaging types including Presaturated Wipes with economical refills, and a liquid refillable spray bottle with convenient refills.

Q. Why are Stereze Workspace Cleaners advertised as high purity? Is that important?

A. Stereze Workspace Cleaners are high-purity which means they do not leave particulate, scents or residue behind, unlike other, low-purity alcohol cleaners that are flooding the market.

Q. Are the Stereze Hand Sanitizer products FDA registered?

A. Yes, the Stereze Hand Sanitizer wipes, gel and spray are high-purity alcohol-based sanitizers and are registered with the FDA under the OTC drug monograph and are fully compliant with all FDA regulations.
