Choose a Stereze™ Hand Sanitizer to Match Your Sanitizing Method

STHS100W

Presaturated Wipes are convenient for areas with high-volume and high-frequency hand sanitizing requirements.

STHSIW

Presaturated Individual Foil Packets are smaller individually wrapped wipes for on-the-go hand sanitizing.

STHS04PS

Spray Bottles come in a smaller size making them easy to spray onto hands for full coverage.

STHS08PL

Pump Gel Bottles are good for tabletop dispensing. A single pump goes a long way.
