

Sticklers™ Fiber Optic Inspection & Cleaning Kits

Product Features

- Inspect, Clean, Inspect – less than ten seconds to complete to ensure you get the job done right the first time, every time
- Includes everything needed to effectively inspect and clean fibers for splicing and connecting
- The VIAVI FiberChek™ Probe Microscope is an “all-in-one” handheld scope with built-in capabilities for image viewing, auto-focus, PASS/FAIL analysis and storing/recalling results
- The inspection scope includes automated inspection software for consistent and accurate results using the IEC 61300-3-35 PASS/FAIL criteria for visual inspection
- Watertight, airtight hard carrying case meets MIL-STD-810F and IP67 rating for immersion

Inspect – Clean - Inspect

Easy 3 Step Process That Takes Less Than 10 Seconds

Contaminated end-face seen through the FiberCheck™ Probe Microscope

Step 1:
Visually inspect the connector end face

Step 2:
Clean the connector end-faces to remove the contamination

Step 3:
Reinspect and mate the connectors
Pristine end-faces compliant to IEC 61300-3-35 as seen through the FiberCheck™ Probe Microscope

Save Money

The average expense of labor for a network installation is 80%.

Save Time

\$500 + 3 labor hours is the US average cost to roll a truck back to a worksite for repairs and rework.

Customer Satisfaction

49% of customers stop doing business with a company after poor customer service.

Productivity

Ensures you always have the necessary cleaning supplies on-hand.

Safeguard

Protects your valuable gear from accidental drops.
