to safely & efficiently clean
your delicate medical and
dental instruments.*

Designed to ensure the safety and health of both patients and staff.

With over 40 years of expertise, you can rely on MicroCare™ Medical to deliver the highest quality products and service.

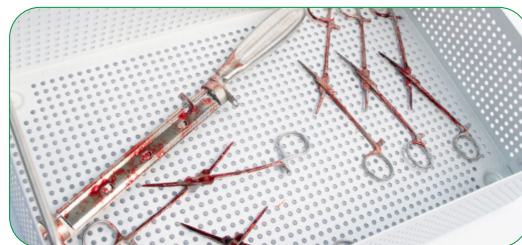

Spec Clean™ Pre-Treatment Sprays

Pre-treatment sprays kickstart the cleaning process and prevent the drying of surgical residues on your veterinary instruments for better, faster results!

Spec Clean™ Pre-Treatment Gel Spray

Ready-to-use neutral pH humectant gel pre-treatment spray for instruments and devices in healthcare settings. The gel formula with naturally generated enzyme action prevents bioburden from drying on surfaces. This makes subsequent cleaning more effective and efficient.

This product contains microorganisms which bio-augment cleaning with naturally generated enzymes. It is compatible with most materials including stainless steel, aluminum, plastics and glass.

200 mL Spray Can

VPREZG/A200-1

Spec Clean™ Pre-Treatment Foam Spray

Ready-to-use foam spray is a neutral pH instrument pre-cleaning spray with four soil specific enzymes: protease for protein soils, amylase for starch soils, lipase for fat soils, and cellulase for fiber soils.

The spray formula also includes surfactants and an advanced corrosion inhibition system. It comes in a trigger spray bottle with a unique applicator designed to create thick long-lasting foam.
